

DIEGO AUDIFFRED MAYORAL

Full-Stack Software Engineer | AI & Machine Learning

Puebla, Puebla, Mexico | +52 951 242 6540 | d1360_audi@hotmail.com | linkedin.com/in/diegoaudi

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 3+ years of experience designing and deploying web and mobile applications using Python, JavaScript, Node.js, React, and SQL. Specialist in optimizing financial workflows through automation and Applied Artificial Intelligence, holding a Master's degree in the field. Proefficient in software architecture, API development, and Agile methodologies, leading commercial platforms end-to-end with a strong focus on technical mentorship.

CORE SKILLS

- Programming Languages: Python, JavaScript, SQL
- Frameworks & Libraries: Node.js, React
- Artificial Intelligence & Machine Learning: Applied AI, Machine Learning, AI Automation Tools
- Software Development: Software Architecture, API Design & Integration, Web & Mobile Development
- Data & Databases: Database Management, Business Data Analysis, Financial Software Optimization
- Tools & Practices: Git (Version Control), Agile Methodologies, Remote Collaboration
- Professional Skills: Technical Communication, Team Mentoring & Leadership, Active Listening, Problem Solving, Time Management, Adaptability

PROFESSIONAL EXPERIENCE

Software Engineer / Full-Stack AI Developer | UCG Unión de Crédito General *Aug 2024 – Present*

- Development and optimization of custom modules and tools for the financial sector using Python and SQL, delivering key automation of operational processes and rigorous control of business data.
- Design and implementation of tailored technical solutions to streamline daily team operations, mitigate operational risk, and improve tracking of financial metrics.

Full-Stack Web Developer | Napoli Ristorante y Pizzeria *Aug 2023 – Mar 2024*

- End-to-end design and development of a full-featured web platform, building custom modules for sales management and real-time automated inventory tracking.
- Implementation of a clean architecture using Node.js and React, optimizing internal restaurant administration and streamlining the order workflow.
- Design and deployment of custom mobile and web applications for multiple industries as a Full-Stack Programmer, ensuring intuitive interfaces and optimal performance.

Full-Stack Developer | Codex *Aug 2022 – Aug 2023*

- La Blanquita: Development of a commercial web platform for the management and online visibility of a butcher shop business.
- Fixing Now: Development of a mobile and web application for requesting and assigning maintenance and installation services.
- Top House / Faz Palau: Delivery of optimized web portals for real estate and legal firms, enhancing their digital presence.

Online Academic Tutor | Preparatoria Social en Línea del Tecnológico de Monterrey (Prep@Net) *Feb 2020 – Nov 2021*

- Personalized academic mentoring and support to high school students in Mathematics, Computer Science, and English, clarifying complex logical and technical concepts.
- Application of assertive communication and digital pedagogy skills, adapting explanations to virtual environments to ensure effective learning and academic progress.

EDUCATION

Master's Degree in Applied Artificial Intelligence | Tecnológico de Monterrey, Campus Digital *Sep 2023 – Dec 2025*

B.S. in Computer Technology Engineering | Tecnológico de Monterrey, Campus Puebla *Aug 2018 – Jun 2023*
